RE: ML 46495-Building Stone/Limestone

Gentlemen:

Thank you for your notice of intent to commence mining limestone under the above numbered lease. During the next 60 days the state will review your proposed action and will contact you regarding any need for additional information.

Division rules require that mines located upon state lands be bonded at the rate of \$5,000 per acre of surface disturbance. The bond is primarily for reclamation but is also conditioned upon the payment of royalties which may become due the state. Your proposal for a five acre mine site will require a bond in the amount of \$25,000. You may post either a surety bond using the enclosed bond form or you may submit a short term renewable time CD with the state listed as a join owner of the CD. In either case the surety or the bank must be licensed in Utah.

Please contact me if you have any questions.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST

JTB/tdw
